

LA Techniques Ltd

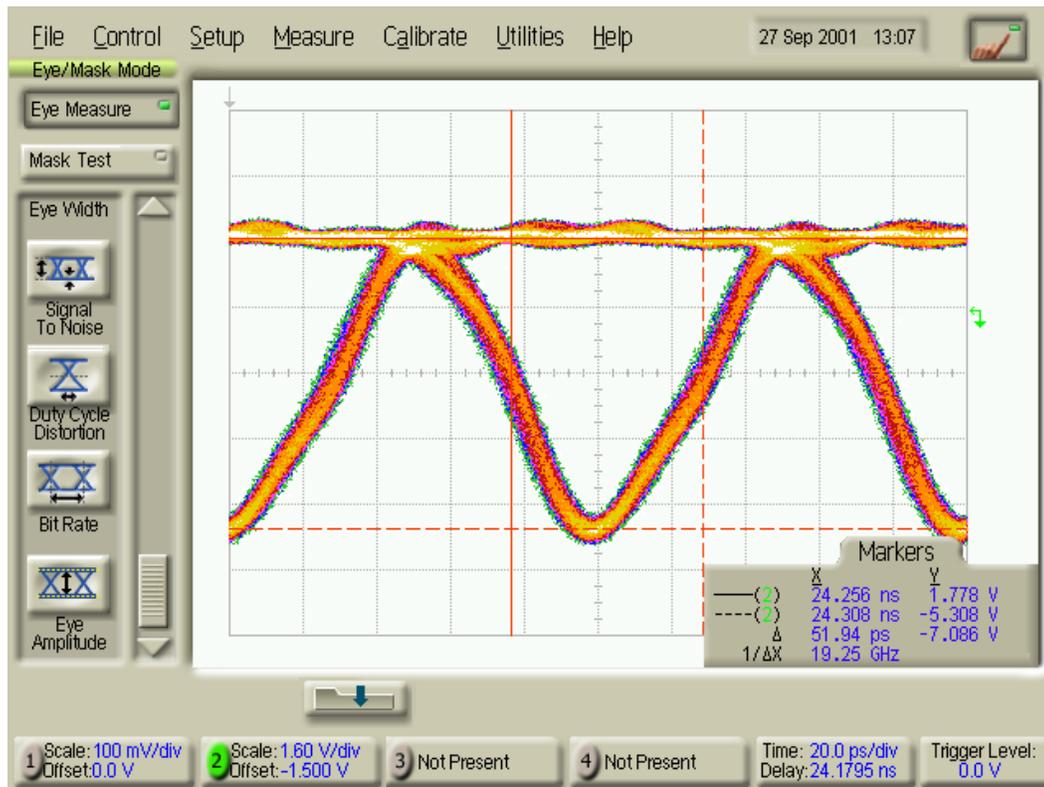

**LA19-08-01
11 Gb/s RZ Evaluation Kit**

The LA19-08-01 is an RZ evaluation kit incorporating LA Techniques' NRZ to RZ converter and RZ driver amplifier together with a mechanical phase adjuster in one ready to use unit. It is intended for evaluation purposes and includes a power supply regulator with manual or electronic (select via an on-board switch) adjustment of the output level and output pulse width. The key features are as follows:

- Operation to 11 Gb/s
- LA32-04-05 RZ Driver amplifier
- LA19-06-01 NRZ to RZ Converter
- Manual clock phase adjustment facility
- Manual / Electronic pulse width adjustment
- Manual / Electronic output level control
- Fully protected and sequenced power supply
